

EKSG 10 eco, EKSG 12 eco, EKSG 17 eco

One-handed cable cutters

One-handed cable cutters help you to avoid fatigue when cutting copper and aluminium wires, cables and cords. They feature a high cutting performance that needs just a little hand force, a clean and pinch-free cut, and ergonomically shaped handles.

The tool can handle the smallest cross-sections all the way up to a diameter of 17 mm.

The facts at a glance

- Excellent cutting performance
- Minimal hand force required
- Clean and pinch-free cutting
- Ergonomically shaped handles
